We can write equations like this

$$\tau\lambda\Psi\psi \tag{1}$$

$$y = mx + b \tag{2}$$

$$z = yx + c + d \tag{3}$$

We can align our equations with

$$y = mx + b \tag{4}$$

$$z = yx + c \tag{5}$$

In line we can write equations like this $N_t = N_0e^{rt}$.
